OBJECTIVE

A motivated and curious learner with a strong interest in computer networking and cloud technologies. I enjoy solving problems through logical thinking and continuously expanding my technical knowledge. I have a foundational understanding of AWS services, networking concepts, cloud computing fundamentals, and system administration.

EDUCATION

MIT Academy of Engineering <i>B.Tech Computer Engineering (Pursuing) CGPA: 7.7</i>	Pune, Maharashtra 2023 – 2027
Dayanand Science College <i>HSC 66.81%</i>	Latur, Maharashtra 2022
Shri Anantpal Nutan Vidyalay <i>SSC 91.80%</i>	Shirur Anantpal, Maharashtra 2020

TECHNICAL SKILLS

Languages: C++, JavaScript(Basic).

Backend & API: Node.js, Express.js, PHP, RESTful API Design, HTTP Methods, API Design Principles, Postman.

Frontend: React.js, HTML5, CSS3, Bootstrap, Material-UI, Axios, React Router.

Databases: MySQL (queries, indexing), MongoDB.

AWS Cloud: EC2, RDS, S3, IAM, VPC, Lambda, CloudWatch, CloudFront, CloudFormation, API Gateway, DynamoDB, SQS, SNS, ElastiCache.

Networking: OSI Model, TCP/IP, UDP, DNS, DHCP, HTTP/HTTPS, Subnetting, VLANs, Cisco Packet Tracer.

Tools & Version Control: GitHub, Postman.

PROJECTS

- Library Management System** | *PHP, MySQL, JavaScript, HTML/CSS, AWS (EC2, RDS, VPC)* Dec 2025
- Developed a full-stack, role-based Library Management System for Computer Engineering Department Library of MITAOE with separate dashboards for Admin, Staff, and Students, serving real institutional use.
 - Implemented core features including book issue/return, overdue fine calculation, CSV bulk import for books and students, and a forgot-password flow with SMTP email.
 - Deployed on AWS EC2 with RDS (MySQL database) inside a VPC.
- Timetable Generator** | *Node.js, Express.js, REST APIs, MongoDB, Bootstrap, JavaScript, Postman* Jan 2026
- Developed a multi-tenant timetable management platform enabling educational institutions to manage teachers, subjects, classrooms, and divisions independently.
 - Implemented a backtracking-based scheduling engine to automatically generate conflict-free timetables while preventing teacher, classroom, and division clashes.
 - Deployed on AWS EC2 & RDS within a VPC for secure and scalable cloud hosting.

ACHIEVEMENTS & COMPETITIVE PROGRAMMING PROFILES

AIR 51 – Cisco APJC NetAcad Riders 2026: Ranked 51st nationally, demonstrating strong networking and analytical skills.

CodeChef: wolverine0007 | **LeetCode:** sanket206 — DSA practice strengthening problem-solving and data structure knowledge.

SOFT SKILLS

Strong analytical & debugging skills | Self-motivated and quick learner | Effective team collaborator | Good written and oral communication | Eager to adapt to new technologies and frameworks.
